

CLASSIC LEGACY CUSTOM PRODUCTS

FIVE EASY STEPS

1. Send us your custom digital image. We just need a jpeg image of your logo, your painting, or your photo! Please note we may need to crop your image to fit into the desired custom setting.

2. Our graphic artist will then send you a screen sample of the product of your choice. You will actually be able to see how it will look! This will be emailed to you for your approval. We work with black and white or color images.
