# CLASSIC LEGACY CUSTOM PRODUCTS

## FIVE EASY STEPS

1. Email us the custom digital (at least 300 DPI) or jpeg image of your logo, painting, or photo! We work with black and white or color images. Please note we may need to crop your image to fit into the desired custom setting.

2. Our graphic artist will then send you a free screen sample of your image on our products. You will actually be able to see how it will look! This will be emailed to you for your approval.

3. You decide which products you want and what quantity you need. A minimum order is 24 pieces using the same image. The set up fee is \$85. If you need 60 or more pieces, the set up fee is waived. The order quantity may be split among various products as long as the same image is used. The size of the image can vary depending on the products chosen. Please contact us for pricing of individual products
